RE: Lance Harris Budget Plan, Devastating Impact to Health Outcomes

Dear Governor:

We have seen recent media coverage of a plan released by State Representative Lance Harris to make current fiscal year cuts in the amount of over \$300 million. We are concerned about the impact to healthcare delivery that will be caused by his proposed cuts.

Under Harris' plan, it has been reported that The Louisiana Department of Health would be cut by \$147,156,472. This cut would defund all of the public-private partnerships and eliminate waiver programs, among other critical health care programs – all with only 4 months left in the fiscal year to implement the cuts. In addition, LDH has already calculated that the cuts would cause loss of matching federal funds such that the total fiscal impact of Harris' proposed cuts on LDH would be \$423,000,000.

I write today to you as a leader at one of Louisiana's Federally Qualified Health Centers. We do not receive a state allocation in the budget. And we were proud to help you lead the charge to expand Medicaid in Louisiana, a move that saved our state money this year and will continue to have exponential returns. But, our patients' overall health outcomes will be impacted severely if these cuts move forward. Our state just moved from 50th to 49th in overall health outcomes. But if our patients lose access to area hospitals because public private partnerships dissolve, if our patients with disabilities lose life saving waiver services that allow their families to remain productive members of our communities, and if other so-called "discretionary" health care programs are cut, we'll be right back in last place. And, worse yet, our patients' health will suffer. Some will die.

Therefore, with an appreciation for just how tough our current state budget situation is, we write today to tell you that we do not support the cuts proposed in

the Harris plan and we stand with you to seek solution-driven ideas for balancing our budget that value the lives and well-being of our patients.

Sincerely,

A handwritten signature in black ink that reads "Donald T. Erwin M.D.".
